ATTN: Jim Kennedy

Gentlemen:

The telecon today regarding your operations in Las Animas county is appreciated; however, it is necessary to emphasize the importance of prompt filing of Form 5, completion reports.

It is usual for the commission to be involved with operators when cementing operations and completions are conducted that may affect protection of aquifers. Changes from the original drilling permit should be in writing on Form 4 and any produced volumes should be reported on Form 7. The Form 7 requires that Form 10 be filed in order that a lease number be assigned by this office.

Testing and venting in excess of 30 days shall be approved in writing by the director. Please see the attached staff memo.

Please submit bond logs and appropriate forms as soon as possible. Your cooperation will be appreciated.

Sincerely,

Eddie B. Binkley
Engineer
