8/5/70 - Phone conversation with Mr. Norval Turnage. Mr. Turnage lives on the land that was formerly owned by Mr. Stiner. Mr. Turnage did not have any knowledge of the #1 Stiner well and has been farming over the location for some time now. After all these years, Walter Broadhead surely will not send in a form or plugging report. I think we can assume that the well is P & A O.K.

I recommend that we finally release this book.  
Jim

8/5/70  
will never get plugging or completion -
