Jack White Drilling Company  
c/o Kay and Kay Accounting  
2731 East Broadway  
Tuscon, Arizona

Gentlemen:

On September 9, 1957, while in Rangely, Colorado, I contacted Mr. Fisher White, of your firm, and requested that he submit various information on your operations in this state. I am enclosing copies of my letters to Mr. Fisher White, written since our September 9th meeting, so that you will be aware of the situation. As of this date, we have not received any communication whatsoever from Fisher White. In my letter of October 22, 1957, I emphasized the Rueben Clarkson well. I want to re-emphasize this situation, since this office is definitely considering legal action, at an early date, if we do not hear from your firm regarding this illegal well.

Mr. Fisher White was sent all the necessary forms and given the proper information by me to comply with our Rules and Regulations. Unfortunately, we have not had any cooperation from him thus far. An immediate reply will certainly be to your advantage, and is hereby requested.

Yours very truly,

OIL AND GAS CONSERVATION COMMISSION  
OF THE STATE OF COLORADO

---

James A. McKee, Petroleum Engineer

JAMCK:lf

P. S. Please note the enclosed request for information on three wells in Rangely. The information was requested of Rangely Oil and Gas Company, but they state in their reply that they think Jack White Drilling Company is the operator.
