Complaint

Comment: At the time of this Field Inspection Report back on August 23, 2023, Operator was in-process of repairing road damages per Rule 1002.f.(2).
 On 8/30/2023, Operator submitted FIRR Doc.# 403515254 providing documentation of the performed corrective action. Operator has documented what appears to be additional damages to the access road by changing the elevation of the road, potentially creating more dust issues, and not sufficiently stabilizing the access road.
 Based on surface owner documentation provided on 8/31/2023, Operator appears to have caused additional damages to the access road, as described above.
 On 9/11/2023, ECMC did not approve the FIRR.

Corrective Action: **Comply with Rule 1002.f.(2) to repair road damages.**
The corrective action date remains out of compliance.
