Representative: _____

2 CA# 180559

Corrective Action: Repair and maintain lease road to comply with rule 204.

Date: 10/09/2023

Response: CA COMPLETED

Date of Completion: 09/12/2023

Operator Comment: Access to well location that does sit within an irrigated field was marked at field edge by two yellow flags. Lease Attendant has been walking into well location. Inspector was not denied or not have access to well location. Foreman rode 4 wheeler from marked entrance to well head location to mark access more clearly on September 12 2023. Operator works with surface owners that have seasonal crops to make as little as footprint and impact as possible to crops.

COGCC Decision: _____

COGCC
Representative: _____

3 CA# 180560

Corrective Action: Operator shall update the pit location (including accurate latitude and longitude) within an updated Form 15. Operator shall identify if the pit is for E&P production or a surface owner feature.

Date: 10/09/2023

Response: FACTUAL REVIEW REQUEST

Basis for Review: Equipment is not owned or controlled by the operator

Operator Comment: Operator submitted an Initial Form 27 on August 25 2023, Doc#403509839 to close Pit 419083. Operator has not been able to find a location close to wellhead or to off location meter shed to indicate location of a produced water pit. There is no visible indentation or reduced or no growth of crops at wellhead or off site meter shed location. Operator feels that a Form 15 is not viable due to not knowing of a new location of pit and submitting inaccurate information to ECMC. Operator requests Rule to identify equipment not located on oil and gas location that is not owned and/or operated by operator.
