July 6, 1960

Chatham Oil Company  
P.O. Box 204  
Rangely, Colorado

Gentlemen:

On May 26, 1960, we received our Form 5 for your M. V. Smith well #25, NESENW, Section 11, T-1N, R-102W, 6th P.M., Rio Blanco County, Colorado, which form indicates that subject well is a dry hole.

As you know, a plugging form (OGCC Form 6) is required thirty days after the completion of your plugging operation. We have had no response from you since our letter dated May 9, 1960, which concerns the plugging of subject well.

We sincerely urge your immediate attention to this matter.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

00063628
