CHARLES D. CONRADO
A. J. JERSIN
DIRECTOR

April 19, 1961

Globe Oil and Gas Company
P.O. Box 1195
Grand Junction, Colorado

Gentlemen:

We have for some time been attempting to contact the operators of the #1 Barcus well in the SE $\frac{1}{4}$, NE $\frac{1}{4}$ of section 11, T.2N., R.3W., Ute P.M. This well was originally drilled by Campbell and Bickling, taken over by William J. Mason, and according to information we have received, has been operating in direct violations of the rules and regulations of this Commission for some time.

Upon contacting them the Western Slope Gas Company informed us that your organization is receiving payment for gas delivered to them.

A previous letter forwarded to Mr. Ralph F. Bradley at the above address was returned unclaimed.

We have enclosed a copy of our rules and regulations and call your attention to:

1. Rule 302. Designation of Agent. This has previously been filed with Mr. Bradley (above) as agent. This should be changed if he is no longer your agent.
2. Rule 308. Operators Monthly Production Reports. We have never received any reports and back reports should be submitted by individual months.
3. Rule 311. Certificate of Clearance. This is to be filed designating change of operator for the well and the effective date of the change.
4. Page 71. Violations and Penalties.

We will anticipate an immediate reply and if you have any questions please contact us.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION
William R. Smith, Senior Petroleum Engineer
