General Comment:

On 8/29/2023, Reclamation Specialist Corey McDonough conducted a final reclamation and stormwater at 44 Canyon LLC's FEDERAL #34-1/2-34-1 location in La Plata County, Colorado.

This is also a follow-up inspection to #693904458, to document compliance for the following corrective actions:

- Final Reclamation
- Stormwater

This inspection is also in response to Resolution #403072041 stating corrective actions have been resolved. Refer to the "Reclamation" section of this inspection report for additional details.

Records show as of 3/31/2006, 44 Canyon LLC is NDBA CHEVRON MIDCONTINENT, L.P., OP#16695.

COGCC Comments

Comment	User	Date
<p>Records show well was PA in 1999.</p> <p>Location is Federal Surface- Final passing by the ECMC is subject to Federal Approval.</p> <p>Inspection #693904458 observed that the Location does not meet ECMC stormwater and final reclamation requirements; southern and southwestern areas of the Location remain bare. Inspection also observed that stormwater management was inadequate on the Location, resulting in erosion and degradation due to runoff.</p> <p>Inspection required Operator to conduct additional reclamation within the unvegetated areas, and to implement stormwater controls to stabilize the erosion and manage runoff.</p> <p>Operator submitted FIRR #403072041 with comments indicating that BLM has “advised no further surface actions are required”. Document #403088402 attached to the resolution included a signed Federal Sundry, “Final Abandonment Notice” for the Location. It was observed in this inspection that stormwater management and Final Reclamation of the Location does not comport with ECMC requirements and standards; southern/southwestern areas remain bare and unstabilized; erosion degradation has persisted. However, pursuant to the BLM FAN, Location has met all Federal reclamation obligations.</p>	mcdonouc	09/14/2023
