|--|---|------------------------|
|  | <p>This inspection was in response to a Final Reclamation Complete Notice Form Doc.#403450767. This location does not meet Rule 1004 standards. After two additional growing seasons since last inspection in 2021, there was establishment of desirable plant species but half of the location and most of the access road lack establishment of vegetative growth that is reflective of reference area levels. Operator has not properly recontoured the access road leaving it susceptible to stormwater erosion. Refer to the attached inspection photos</p>  |                        |
| Corrective Action:   | <p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management. The corrective date is not intended to be the date for which the Operator shall complete the corrective actions but rather the corrective date is the date the location was observed out of compliance.</p> | Date <b>09/20/2023</b> |
