**Spill/Remediation:**

Comment: Remediation # 21723 is ongoing, There is an open trench where samples were collected by the Operator, There is evidence of oil stained soil under Tank # 1 and Tank Number #2 looking in the northern direction. The soils under the tanks will need to be remediated along with the remaining material throughout the secondary containment for the Battery.

Corrective Action: Operator will continue remediation Project 21723 in compliance of Rule 912 and 913. Operator shall continue quarterly reporting until the site is compliant with Table 915-1 Standards. All Previous COA's and CA's remain in effect until the site if fully remediated. There was a Form 27 Due on June 28, 2023 per Rule 913.e.
