Completion or Recompletion Report and Log form.)17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent
to this work.)*11-29-74
Well has quit producing and the equipment has been removed. The well
has been plugged and abandoned in the following manner:

1. Cleaned out well to 1970'. Hole started caving badly and began sticking tools. Could not get below this depth and had no oil, so decided to plug well.
2. Placed a 30-sk cement plug at 1970'-1850', at bottom of hole and on top of bridge.
3. Placed a 24-sk cement plug at 325' to 225', across bottom of surface casing.
4. Placed well marker and ten-sk cement plug in the top of the surface casing.
5. Cleaned and levelled location.
