**General Comment:**

[CECMC Inspection Report Summary](#)  
On 10/24/2023 at approximately 13:00 hours, I, Compliance Specialist, Wayne Smelser Conducted a domestic tap inspection at TEP ROCKY MOUNTAIN LLC Domestic Tap 3NESE Location # 311559 in Garfield County Colorado.  
While there, I observed the domestic tap is derived from MITCHELL W-27-3 well casing valve.

**Inspected Facilities**

Facility ID: 456925 Type: Domestic Tap API Number: - Status: AC Insp. Status: AC

**Producing Well**

Comment: While there, I observed the domestic tap is derived from MITCHELL W-27-3 well casing valve. There's a one inch line connected to the casing valve, the line has a check valve on it. Following the check valve there's a ball valve & then a Fischer little joe regulator. Following the regulator there's a fluid knock out. All fittings appear to be adequately sized to handle the maximum operating pressures of the regulator. No PRV or odorizer observed.

There's a 2nd line going to the regulator & fluid knock out that comes off the TEP sales line. Valve on 2nd line shut at time of inspection.

Corrective Action:

Date:

**Reclamation - Storm Water - Pit**
