RECEIVED  
JUL 13 1964OIL & GAS  
CONSERVATION COMMISSION

June 10, 1964.

Oil and Gas Commission  
State of Colorado  
Room 312 State Service Bldg  
1525 Sherman St.  
Denver, Colo. 80203

Gentlemen:

We have engaged the Western Slope Business Service  
P.O. Box 308, Rangely, Colo. to make our reports on  
production and sales of oil to the State of Colorado  
and also to the USGS. So in the future, if you want  
any information, regarding the reports, correspond  
with them.

We have a change we would like to make on the Hubauer  
No. 42 Well, Lease No. Colo. 034894. We would like  
to change this No. to Harrison-Smith No. 1, as that  
is the way it is recorded with the USGS.

We have completed two more shallow wells on this lease  
and they will be Harrison-Smith No. 2 and No. 3. and if  
you will send me some forms for completion reports I  
will report them to you at the earliest possible date.

We hold an Operator's on this lease from the LuBauer  
Petroleum Co. The Abstract and Division Order have  
been sent in to Permian Co. of Midland, Tex.

They are in process of examining the abstract.

We will appreciate having these numbers changed as it will  
help keep our records straight with both you and the USGS.

Very truly yours

HARRISON-SMITH
