OIL AND GAS CONSERVATION COMMISSION  
OF THE STATE OF COLORADO  
Room 312, State Services Bldg.  
1525 Sherman Street  
DENVER, COLORADO 80203

Gentleman: D. V. Rogers, Director

In answer to your letter of January 27, 1965 wanting the present status of well # 1 Lubauer Petroleum Co. Gov. NENE 10-1N-102 W Rio Blanco.

I am sure I gave you this information before, but will give it to you again.

This well has been drilled to a depth of 1625 ft. and plan on drilling it deeper.

I have never been able to get the title of option clear on these leases, and do to the fact, I have never been able to receive any of the money from the oil runs. I have put thousands and thousands of dollars in on these leases, so I have stopped operations on this well # 1, until the title option has been cleared up, so I can receive my money.

This is now in the lawyer's hands now & has been for some time, but so far he hasn't passed the option on it yet. How much longer this will take I do not know. But I will not continue operations until this is cleared.

Hoping this will answer your questions on this well.

" Sincerely "
