Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work Nov. '74-Jan. '75

This well was drilled several years ago by Tom Rabourn by cable tools, but was never completed due to legal action. The well and property has now been purchased by the above company and the well has been completed for a production of about two to three barrels of oil daily. However, the well is pumped about every 4th day. The flow line to the tanks about 1/4 mile distant has been ~~in~~ froze due to cold weather, but is now free. Pumping operations will continue.
