General Comment:

On 10/18/2023, Reclamation Specialist Trujillo conducted a final reclamation inspection at POC-I LLC's Iles Dome Unit 8 location in Moffat County, Colorado.

The following compliance issues were observed during this inspection:

- Closure of O&G Facilities
- Submission of Subsequent Report of Abandonment and NOAV #403179414 Abatement/Corrective Action requirements
- Wildlife Mortality
- 1004 Final Reclamation

Refer to the "Location", "Environmental" and "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable; Refer to inspection # for compliance issues related to the Iles Dome Tank Battery Facility

The "Date of Discovery" is being provided as the corrective action date for all new observed compliance issues. Location will remain out of compliance until corrective action(s) has(have) been resolved and a follow up inspection will be conducted to ensure the compliance issues have been corrected to comply with ECOM rules.

Comment:

Operator submitted a Form 6, Notice of Intent to Abandon the well on July 7, 2021 (document no. 402737555).

ECMC staff conducted an inspections of the Dome Unit #8 well on October 4, 2021 9/26/2022, and observed the well had been plugged and abandoned, though no Form 6 Subsequent had been submitted.

NOAV #403179414 was issued 9/27/2022 requiring Operator to submit the Form 6(s) to ECMC Engineering by 10/27/2022.

Unable to find record that a Form 6(s) has been filed.

Corrective Action:

Comply NOAV #403179414 Corrective Action requirements, and Rule 435.b.

COGCC Comments

Comment	User	Date
<p>RECLAMATION COMMENT</p> <p>It was observed in this inspection that the well has been P&A, however reclamation of the Location has not been performed in accordance with 1004 Requirements; Surface Owner road travels through Location; complete recontouring of the Location unfeasible.</p> <p>Equipment observed remaining on the Location:</p> <ul style="list-style-type: none"> -Deadman/anchor on the southeast corner has not been removed. -Pipe on the west end of the pad remains apparent- Operator appears to have cut pipe at the surface and backfilled with soil. Pipe requires removal and proper capping subsurface. -Two pipe risers that appear to be related to the flowline valves remain on the north end of the Location- pipes not properly covered resulting in bird mortality; pipe/equipment requires removal. -Utility Equipment/Pole on the northwest of the Location requires removal. <p>Areas of the Location beyond the surface owner road requires reclamation to Rule 1004.c. (2) standards.</p>	trujilloam	10/31/2023
