17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work April 1986

This hole was found open on this lease when purchased by the present operator. It was plugged at the request of and with the procedure suggested by the Bureau of Land Management. (See attached approved Sundry Notice filed with the Bureau of Land Management.)

This hole was bailed to remove a small amount of water, then backfilled with sand and shale cuttings to within 100' of the surface. The top 100' of the hole was filled with a hand-mixed cement plug, and a properly marked dry hole marker placed in the top of the cement.
