17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Our records indicate that this well is on the lease given above, recently acquired by Twin Arrow, and that its location is that given above. We have no records indicating downhole equipment or if the well was producing.

We propose to locate this point by survey, and, if possible, locate the well. If the well is open, we will evaluate it. We will either put it on production, or, if it is determined non-productive, we will call the District Engineer and re commend a plugging procedure for his verbal approval.

18. I hereby certify that the foregoing is true and correct
