Dear Mr. Pyle:

Personnel from this office inspected the above referenced well location on November 16, 1984. The well location and associated disturbance (ie access road has not been reseeded in accordance with the Conditions of Approval for the approved Application for Permit to Drill (APD).

This office hereby instructs you to reseed all disturbed areas associated with the referenced well location with the following seed mix in accordance with the approved APD, by December 15, 1984, weather and soil conditions permitting.

<u>Species</u>	<u>lbs PLS/Acre</u>
Western wheatgrass (Arriba)	4
Sand dropseed	2
Fourwing saltbush (Wytana)	2

The seed shall be drilled no deeper than 1/2 inch. In the event weather or soil conditions do not permit seeding within the above timeframe, the location shall be reseeded in 1985. Fall seeding is recommended.
