**General Comment:**

This is a follow up final and stormwater inspection from previous inspection #709400280 conducted 5/30/23. Inspection #709400280 conducted on 5/30/23 had several corrective actions and should have failed overall final reclamation and was an clerical error.  
Previous inspection sited weeds and bare ground in the reclamation area; comply with rule 606.  
  
No action has been taken by the operator to address corrective actions since the last inspection.  
  
Current inspection CA's  
Weeds (kochia & Russian thistle) observed  
Bare ground observed

Comment:

	inal reclamation is not progressing towards 1004 vegetation standards. Perform reclamation per Rule 1004. Establish vegetation with total perennial, non-invasive uniform plant cover of at least 80 percent of reference area levels. Use surface owner seed mixture, or one prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage the site. Vegetation in fianl area are predominantly undesirable species (Kochia, Russian thistle). Weeds are impeding the perennial vegetation. See good house keeping.	
Corrective Action:	Comply with Rule 1004 The corrective date is not intended to be the date for which the Operator shall complete the corrective actions but rather the corrective date is the date the location was observed out of compliance.	Date <b>10/20/2023</b>
