If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work _____

It is our intention to plug, pull casing and abandon well #4 as a dry hole, T.D. 3585'. We will fill hole with loose shale, clean ground and erect a marker.

Original notice of this intent was mailed 7/27/70 - but total depth was reported as 4000' - this was in error - we will go no further than 3585'.

Ground is frozen and we are unable to work at this time - it will probably be next spring before we resume work, and finish abandonment.
