

Oil will be trucked offsite

Produced water will be trucked offsite

All gas piped to processing plant and separated there.

LEGEND	Status	Qty
Wellhead	Permanent	1
Heated Separator 75 bbl	Permanent	1
Water Tank 300 bbl	Permanent	1
Oil Tank 300 bbl	Permanent	1

PRODUCTION

PRELIMINARY PROCESS FLOW DIAGRAM
 Wavetech Helium, Inc.
#1 Wavetech Harker-Family 14-26
 Section 26 T12S R43W
 Cheyenne County, CO

Note: The well will be a conventional vertical well with no hydraulic fracturing, stimulation, or flowback. All formation water during well completion and all produced water during production will flow to an on-site separator for separation of oil and water. Oil and water will be stored in tanks. Oil will be trucked to a commercial transfer point. Water will be trucked for disposal at a commercial UIC well. The gas stream will be piped underground to the existing Ladder Creek Gathering System operated by Tumbleweed Midstream for processing off site.
