**Off-Location Flowline**

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and 906.

**Operator Information**

OGCC Operator Number: 10459 Contact Person: James Miller  
Company Name: EXTRACTION OIL & GAS INC Phone: (720) 984-7460  
Address: 555 17TH STREET SUITE 3700 Email: jmillier@civiresources.com  
City: DENVER State: CO Zip: 80202  
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes ☒ No ☐

Name: DONLEY-61N69W Number: 36NESE  
County: BOULDER  
Qtr Qtr: NESE Section: 36 Township: 1N Range: 69W Meridian: 6  
Latitude: 40.004330 Longitude: -105.059790

**Description of Corrosion Protection**

Extraction's corrosion procedures are detailed in its Flowline Management SOP. Coating materials will be used that minimize internal and external corrosion, such as internally coated pipe or stainless steel for water service, and externally coated FBE on all buried steel pipe. If flowlines are repaired due to corrosion, Extraction will investigate the failure, promptly respond with the appropriate remedial actions and determine the root cause and apply corrective actions as necessary. Extraction retains records of its chemical program in the form of Failure Analysis Reports, records of chemical invoices and chemical delivery.

**Description of Integrity Management Program**

Extraction's integrity management program is detailed in its Flowline Management SOP, which covers flowline installation, operation, maintenance, inspection, testing, and repairs. Prior to beginning any project involving flowlines, Extraction ensures the project plans, flowline installation, flowline maintenance (including repairs) and all flowline inspection and testing projects meet the requirements of the Flowline Management SOP. All pressure tests on flowlines will be conducted by an independent, third party qualified to do such testing. Precautions shall be taken to protect employees and the general public.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

NA

Test Date: 04/04/2018

**OFF LOCATION FLOWLINE Abandonment Verification**Date: 07/15/2021**Abandonment Verification**

The abandoned Off-Location Flowline was located within the jurisdiction(s) of the following local government(s).

(No Jurisdiction)

**Description of Abandonment Verification:**

The flowline (01306247FL) serving the DONLEY 2-36 (05-013-06247) was removed in its entirety via the open trench method. The trench was backfilled and the land surface graded.

**OPERATOR COMMENTS AND SUBMITTAL**

Comments Form 44 filed to report POST-ABANDONMENT verification. The following flowline(s) were removed:  
01306247FL: serviced DONLEY 2-36 (05-123-06247)  
  
Post-abandonment was previously submitted on form 42 document #402860569. Duplicate Form 44 post-abandonment verification submitted to close out off-location registration.  
Updated GIS data attached.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
