Re: Weber #9-9 NE SE 9 16S 46W

Dear Mr. Hembre:

In order to allow continued temporarily abandoned status for the referenced well the Commission must require per Rule 327 that a mechanical integrity test be performed on this well prior to March 31, 1992. This test will assure the Commission that the well still has casing integrity and is capable of being used as a water disposal well.

Please contact me or Larry Robbins at 894-2100 to schedule the test. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read "Dave Shelton".

Dave Shelton  
Petroleum Engineer
