R. L. CLEERE, M.D., M.P.H., DIRECTOR

August 19, 1970

Mr. Douglas V. Rogers, Director  
Oil & Gas Conservation Commission  
1845 Sherman Street  
Denver, Colorado 80203

Re: Application by Inexco to dispose of produced Mississippian water into the Kinderhook and Arbuckle formations in the Golden Spike Field, Cheyenne County.

This Division has no objections to the above proposal providing you are satisfied the fresh water aquifers are protected. From information on the Well Completion Report, it appears that the surface and intermediate strings of casing were cemented back to the surface which should provide the necessary protection.

FOR DIRECTOR, WATER POLLUTION CONTROL DIVISION

  
Kenneth W. Webb, P.E.  
Public Health Engineer
