COLO. OIL & GAS CONS. COMM.

Mr. Douglass V. Rogers  
Director, Oil and Gas Conservation Commission  
Room 237  
1845 Sherman Street  
Denver, Colorado

Dear Doug:

Sorry for the delay in answering your letter of August 17, 1970.

As we verbally advised you, the injection zone does not involve a potable water supply but before formally answering, we did want an opportunity to check casing design and possible effects on the Dakota or upper formations. We are now satisfied that not only the injection zone but the method of completion of the injection well will not be harmful to any of the reservoirs we administer and would certainly not object to your approval of the project.

Very truly yours,

  
C. J. Kuiper  
State Engineer
