Inspection Photos

Photo 2. Facing back south toward the erosion gully along the roadside which needs to be repaired. A 4.5 ft. shovel shows depth of erosion.

Inspection Photos

Photo 3. The culvert at this drainage crossing has filled in with sediment and debris and must be cleaned out.

Inspection Photos

Photo 4. Facing northeast toward the abandoned wellsite which was never reclaimed. Soils remain bare of vegetation. Previous corrective action was not completed.

Inspection Photos

Photo 5. There is a cement block and guy line anchor that remains at the east side of the location that needs to be removed.

Inspection Photos

Photo 6. Facing northeast at the wellsite. There is a metal cable guyline anchor that remains at red arrow.
