

# Colorado Environmental Spills or Releases Reporting Form

This form should be completed for any type of petroleum product or hazardous materials / waste spill or release or to satisfy any federal or state reporting requirements.

Date Reported	10-31-2023 13:52 ( in military time)
---------------	-----------------------------------------

Who completed the "CDPHE Only" fields for this report?	<input checked="" type="checkbox"/> Korey Bell
--------------------------------------------------------	------------------------------------------------

CDPHE Only - NRC Number:	1383133
--------------------------	---------

## Reporting Party Information

Reporting party's name	Mary Griggs
------------------------	-------------

Reporting party's organization	Prospect Energy LLC
--------------------------------	---------------------

Phone number	(303) 912-8292
--------------	----------------

Email address	griggs.mary@comcast.net
---------------	-------------------------

Street address	3293 S. Jay Street
----------------	--------------------

City	Denver
------	--------

Zip code	80227
----------	-------

State	<input checked="" type="checkbox"/> Colorado
-------	----------------------------------------------

## Potentially Responsible Party's (PRP) Information

Is the Potentially Responsible Party (PRP) the same as the Reporting Party above?	<input checked="" type="checkbox"/> No
-----------------------------------------------------------------------------------	----------------------------------------

PRP's organization	Prospect Energy LLC
--------------------	---------------------

PRP's contact person	Ward Giltner
----------------------	--------------

PRP's phone number	(303) 489-8773
--------------------	----------------

PRP's street address	1036 Country Club Estates Drive
----------------------	---------------------------------

PRP's city	Castle Rock
------------	-------------

PRP's zip code	80108
----------------	-------

PRP's state	<input checked="" type="checkbox"/> Colorado
-------------	----------------------------------------------

## Event Information

Event date	10-31-2023
Event time	09:50 ((click the clock to use sliding bars or enter in Military Time))
Do you have the physical address, highway, or intersection, or the legal description of where the event occurred?	<input checked="" type="checkbox"/> Legal Description of the Location
County where the event occurred	<input checked="" type="checkbox"/> Larimer
Legal Description of the Location	SWNE Section 30, Township 8N, Range 68W (Ex. Quarterquarter: NESW, Section 21, Township 5N, Range 68W) (Ex. Quarterquarter: NESW, Section 21, Township 5N, Range 68W)
Do you also have the latitude and longitude of where the event occurred?	<input checked="" type="checkbox"/> Yes
Latitude where the event occurred	40.635703
Longitude where the event occurred	-105.042842
Material Information	
CDPHE Only - Type of Material	<input checked="" type="checkbox"/> Oil
Is this a Permit Exceedance?	<input checked="" type="checkbox"/> No
Material	Produced Water ((If oil, please specify type))
Quantity	20
Units	<input checked="" type="checkbox"/> Barrels
Did any of the released material impact a waterway or storm drain, even if dry?	<input checked="" type="checkbox"/> Yes
List waterways impacted in order	City of Fort Collins storm drain, number 8 outlet ditch
Quantity of material to waterway or storm drain	5
Units	<input checked="" type="checkbox"/> Barrels
Was there a second material?	<input checked="" type="checkbox"/> No
Source Information	

Please identify source of the spill or release. This is the entity from which the material(s) are discharged, such as a motor vehicle, a railcar or a storage tank.

General source ☐ Other

Specific source ☒ Oil well/Well site

Cause ☒ Equipment failure

Please describe the cause of the spill, release, or incident and whether the spill impacted concrete, asphalt, gravel, dirt, water, dry waterway, fixed facility or air.

A City of Fort Collins employee, Andrew Crecca, was inspecting a drainage for an area if new construction and noticed a discolored fluid mixed with storm meltwater, in a storm detention pond. Mr. Crecca notified the City of Fort Collins and then notified Prospect Energy at about 9:50 a.m. Prospect isolated and shut-in the valves for the produced water injection line by 10:30 a.m. The path of the spill was noted to be mixed with storm meltwater, and traveled from the release point to under a silt fence, then North 40' to a "rain garden", then east into Number 8 Outlet Ditch, SENW Sec 29.

CDPHE Only - Medium Impacted ground, ditch, culvert

CDPHE Only - Medium Impacted Categories ☒ Land and Water

CDPHE Only - Waterway Impacted #8 Outlet Ditch, culvert

#### Actions Taken Information

What, if any, mitigation actions have been taken?

Ditch personnel blocked the ditch to prevent further migration of fluid at about 1 p.m. A hydrovac will be dispatched on 11/1/23 to recover impacted fluids.

Was a clean-up contractor contacted? ☒ Yes

If so, who? Hydrovac Company

Please select the Incident Report Number generated in the drop down.
