This Form 44 registration is being done to better able track the removal of a previously abandoned in place flowline (pre 5/1/2018) that upon field inspection on 7/26/2023 was discovered to be partially uncovered. The plan is to remove the necessary footage of the exposed flowline so that all pipe will be buried at the adequate depth per the attached procedure.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
