General Comment:

This is an orphaned well inspection. Inspection completed to document current condition of location, equipment, and wellhead. Inspection may also identify possible task required for final closure/release of location from the Orphaned Well Program. See link at end of report for path to downloadable documents and pictures.

The tank battery is located 1900' NNE of the wellhead, and is fed solely by the Georgene 32-12 well.

No location # has been assigned to the tank battery at the time of this inspection.

Wellhead is not fenced. No livestock observed.

Location is level and located in active ag field.
