Comment: This location does not comply with Rule 1004. During this inspection, it was observed that all production equipment was removed and the location has been restored to its original grade. The reclaimed areas are not progressing towards Rule 1004 standards, or the reference areas, with evidence of gravel, non-uniform vegetative cover (e.g. bare soil) and a predominant vegetative cover of undesirable weed species (e.g. russian thistle and kochia). Additional reclamation activities are required. Refer to attached inspection photos.
