Dear Sirs:

Enclosed herewith find logs of our
No. 6 Well in triplicate.

We had a small showing of
oil around 1600 ft. but not enough
to pump, and have delayed
sending the logs as we have been
trying to figure out some way of
squeezing enough oil out of it to
pay, but haven't come up with
any thing yet so just put an iron
cap on.

Yours truly
L. E. Jones.
