Gentlemen:

Enclosed is a notice of intention to drill on patented land. This land is owned by Mary E. Hefley, and was leased by her to the Stanolind Company. We have a lease on the shallow rights on 92 acres of it from the Stanolind Company and plan to drill several wells there during the next year or two.

Will you please send us some more of these blanks, and let us know if you have other forms for reports. We did not know of this requirement until we were told of it at the Stanolind office, so if there are other reports that we should send you please let us know.

Yours truly,

Pleasant Valley Oil Corp.
