Rangely Field  
Rio Blanco County

Dear Mr. Skeem,

A field inspection was recently conducted on the Coltharp lease wells operated by Auraqwest Capital Corp. in the Rangely field to determine the plugging status of the wells for the purpose of plugging bond release. The following conditions were noted:

<u>Well</u>	<u>Location</u>	<u>Status</u>
Coltharp A-1	NENW 1-1N-102W	Casing w/bolted plate & drilling flow line above ground surface.
Coltharp A-2	NENW 1-1N-102W	Abandoned small truck mounted rig still over hole - lots of debris on location.
Coltharp A-3	NENW 1-1N-102W	Casing w/slip on cover (thread protector) above ground level.
Coltharp C-2	NWNE 1-1N-102W	P&A'd w/pipe well marker, clean location.

At present, the Coltharp A-1, A-2, and A-3 are not ready for a final bond release inspection. Please contact me at:

Colorado Oil and Gas Conservation Commission

to discuss your plans for future work on these wells. I would also be happy to meet a representative of your company on location to discuss your plans. I am looking forward to hearing from you in the near future.

Sincerely,

Brian J. Macke, P.E.
