Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
318333	LOCATION	CL			-	EDWARD HEMPLE UNIT-64N65W 20NWNW	EI

**General Comment:**

On November 6, 2023, ECMC Environmental Unit Staff Krystal Heibel and Kyle Waggoner inspected the Edward Hemple Unit location (Location ID: 318333). At the time of inspection, ECMC Environmental Staff observed a third-party excavating impacted soils.

Groundwater was observed within multiple excavation areas during the inspection.

**Remediation Project #12591**

Most recent Form 27 submittal (Doc #403298775) was received on March 14, 2023. A Form 27 submittal was due 90 days later, no later than June 12, 2023. Noble Energy Inc will remain in violation of Rule 913.e.(3) for each project until a Form 27 is approved by the Director.

While on location, impacted soil was observed, olfactory and visually from within the excavation area. A surface disturbance (irregular yellow crops) was observed from the adjacent cropland. Drone visuals will be collected from the ECMC for remediation investigation.

A groundwater sample was collected at the landowners house adjacent to the site. The sample will be analyzed for semi-volatile organic compounds, alkalinity (total bicarbonate and carbonate), total dissolved solids, specific conductance, pH, sodium absorption ratio, volatile organic compounds with TICs, anions (Br Cl Cl SO4 P), cations/dissolved metals, nitrate, cation/anion balance, total organic carbon, and total petroleum hydrocarbons (C6 - C36).

This is an environmental inspection. Any corrective actions from previous inspections that have not been addressed are still applicable.

**Location**Overall Good: ☐

<b>Signs/Marker:</b>
