Gentlemen:

Enclosed are applications to drill four wells by Tiger Oil Company as filed with the U.S.G.S. and B.L.M. on Form 9-331C.

Some of these locations have been slightly moved from a center 40-acres location due in part to topography or due to having been moved by the federal employees during ground inspection, since these wells are all on B.L.M. minerals.

Also enclosed is my check to cover the filing of these permits. Should you need any additional information, please so advise.

Sincerely,

George H. Fentress  
Consultant Representative for  
Edward Mike Davis dba  
Tiger Oil Company
