Grover, CO 80729

Mr. Loyd,

By this letter we are confirming your request that 8 North, LLC ("8 North") request approval from the COGCC Director to abandon in place the flowline indicated on the attached Exhibit A, associated with the Peters 3 Well (API 05-123-05952).

During a consultation regarding the removal of the flowline associated with the Peters 3 Well on March 1, 2022, you requested the flowline be abandoned in place due to potential impacts to surrounding crop lands. In order to fully remove the flowline, 8 North would likely have to excavate the length of the flowline, causing unnecessary soil disturbance.

8 North will conduct flowline abandonment in place per rule Rule 1105.e. of Section 2 CCR 404-1-1100 - SERIES - FLOWLINE REGULATIONS of the Colorado Oil and Gas Conservation Commission. This will include evacuating the flowlines of any hydrocarbons, water, and pressure, cutting off the flowline risers to at least 3' below grade, and capping/sealing off the ends of flowline.

You may visit the Colorado Oil and Gas Conservation Commissions website at cogcc.state.co.us or contact them at (303) 894-2100 for additional resources and information concerning these operations.

I am available to answer any questions you might have concerning this letter and the planned operations. Please do not hesitate to call me with any questions or concerns. 970-381-6027.

This letter represents the agreement between Loyd Farms and 8 North in regards to the abandonment in place of the flowline referenced on the attached Exhibita A. If you agree with the abandonment in place of the section of flowline referenced on the attached Exhibita A, please sign where indicated below.

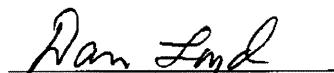

Sincerely,
8 North, LLC

Cory Neighbors
Surface Landman

Acknowledged and agreed this 15 day of March, 2022.

Loyd Farms

Dan Loyd, Manger
