well fell

June 18, 1964

William J. Bennett
1825 Applewood Drive
Denver 15, Colorado

Attention of Mr. Carl Courts

Dear Sir:

You have been recently contacted regarding the current status of your wells in the Boulder area, namely the # 1-X Continental NESW 33-2N-70 W, the # 2 Continental NWSE 33-2N-70 W and the # 1 Bennett NESW 33-2N-70 W. All of these wells were originally approved in 1962 and it is imperative from time to time that we know the status of active wells. We will anticipate your early answer regarding these Boulder county wells.

In addition to these Boulder county wells, there are two wells in the Rangely area, mainly the #1 Mary E. Hefley and the #2 Mary E. Hefley both located in the NWSE of Section 2-1N-102 W. We have not heard anything on the #1 since the intention was approved on April 11, 1960. As to the #2 well, verbal approval to plug was granted in December of 1960 and no completion report or plugging report has ever been filed. Will you please check these matters also at your earliest opportunity.

Yours very truly,
OIL AND GAS CONSERVATION COMMISSION

William R. Smith, Deputy Director
