

Sam 25H-M166

Location ID 453474

Spill ID 484966

Field Assessment & Sampling Activities

September-December 2023

## Initial Assessment – 09/08/23

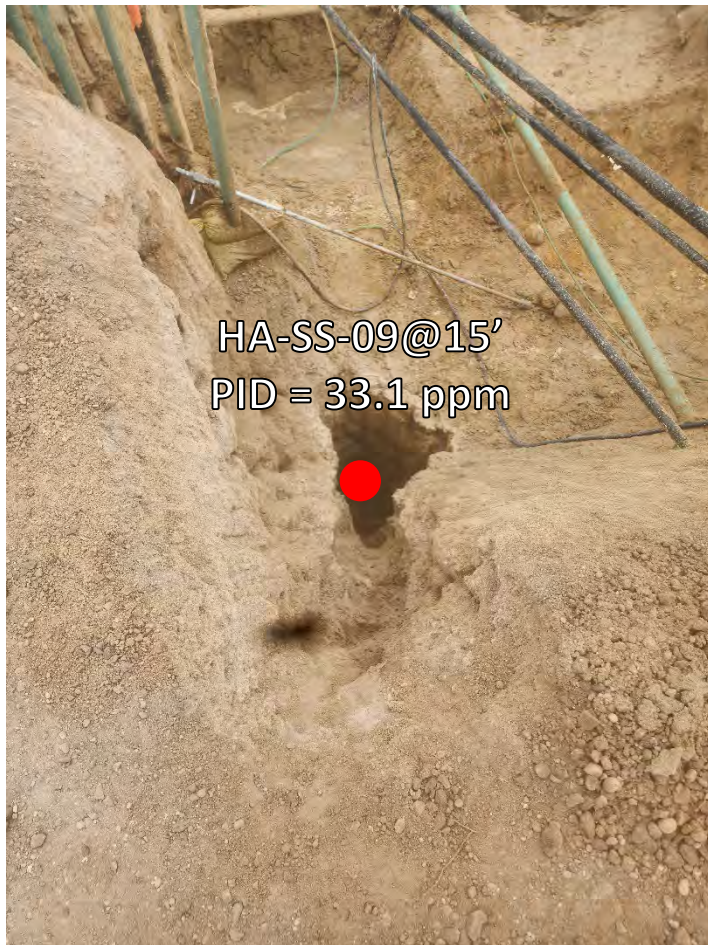

Looking east-southeast at initial excavation

Petroleum hydrocarbon staining and odor observed

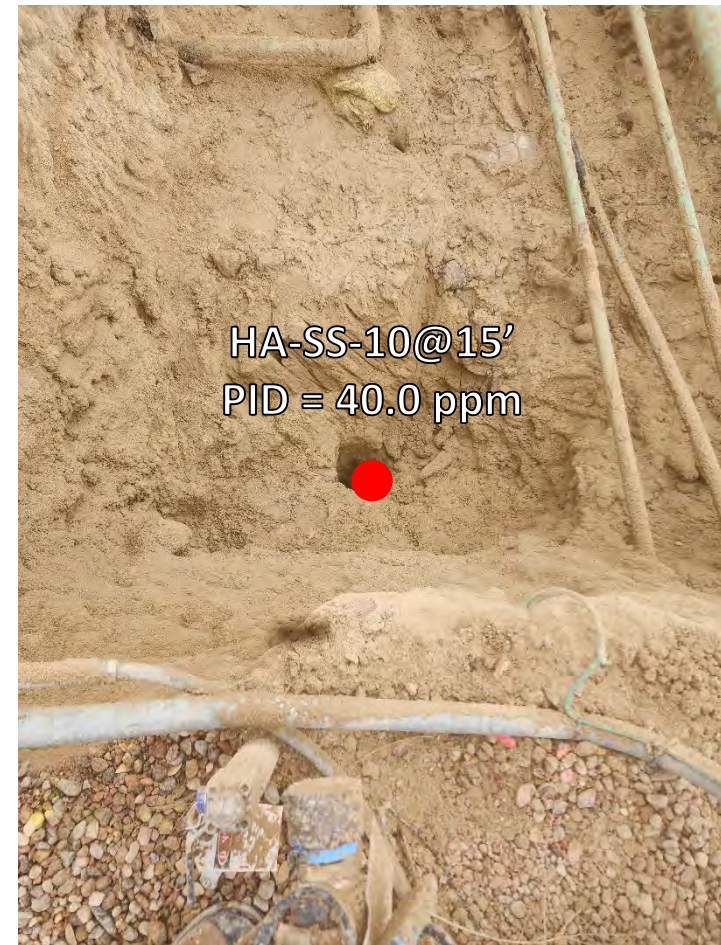

Hand auger utilized within and adjacent to excavation to attempt preliminary delineation – hand auger limited by lithology

## Delineation Activities – 10/26/23

Looking north  
Hydrovac/hand auger utilized to delineate release  
  
No petroleum hydrocarbon staining and odor observed

Looking east  
Hydrovac/hand auger utilized to delineate release  
  
No petroleum hydrocarbon staining and odor observed

## Delineation Activities – 10/26/23

Looking south  
Hydrovac/hand auger utilized to delineate release

Slight petroleum odor observed

Looking west  
Hydrovac/hand auger utilized to delineate release

No petroleum hydrocarbon staining and odor observed

## Delineation Activities – 10/26/23

Looking north

Hydrovac/hand auger utilized to delineate release

No petroleum hydrocarbon staining and odor observed

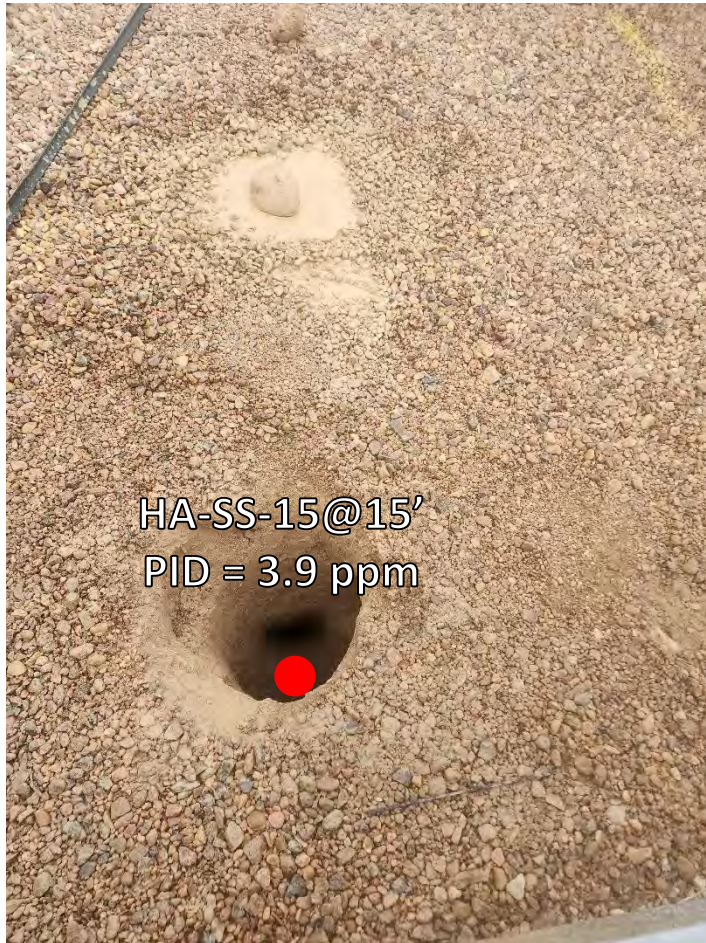

Looking north

Hydrovac/hand auger utilized to delineate release

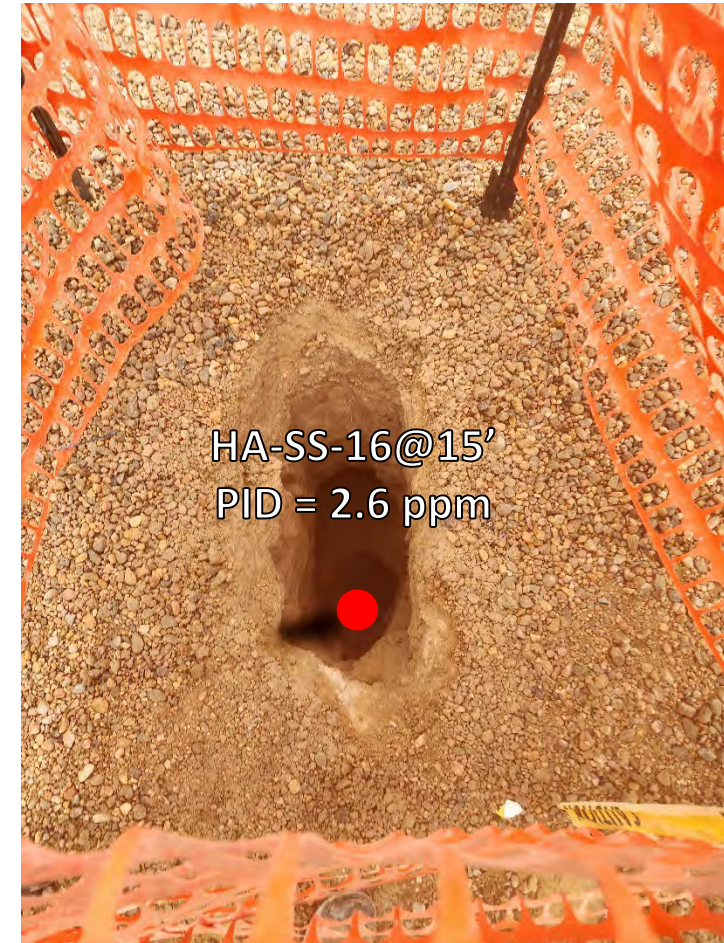

No petroleum hydrocarbon staining and odor observed

## Delineation Activities – 10/26/23

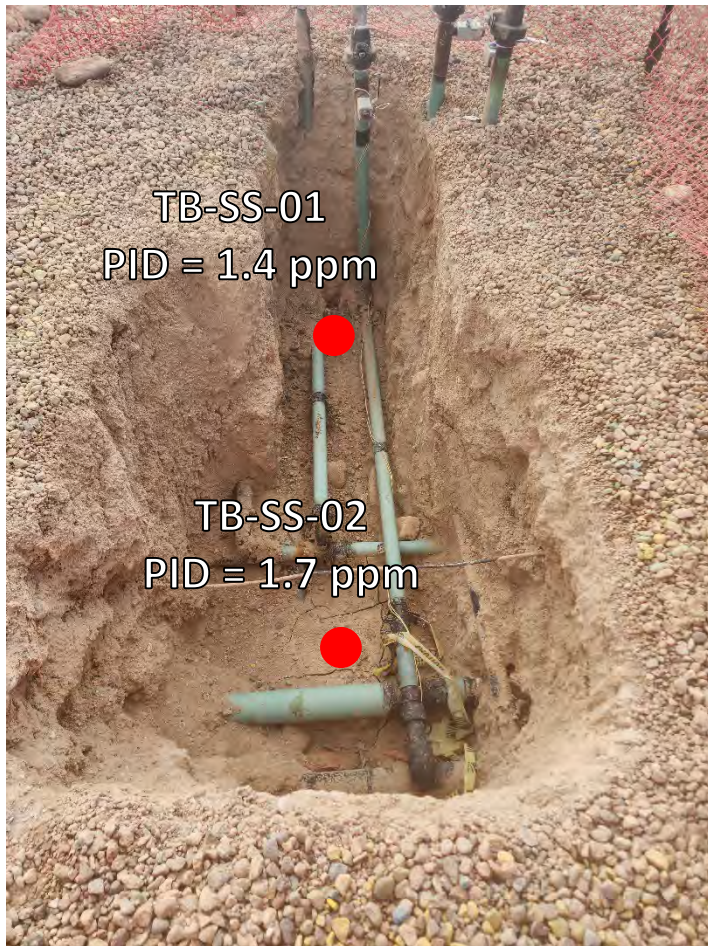

Looking north  
Hydrovac/hand auger utilized to delineate release  
  
No petroleum hydrocarbon staining and odor observed

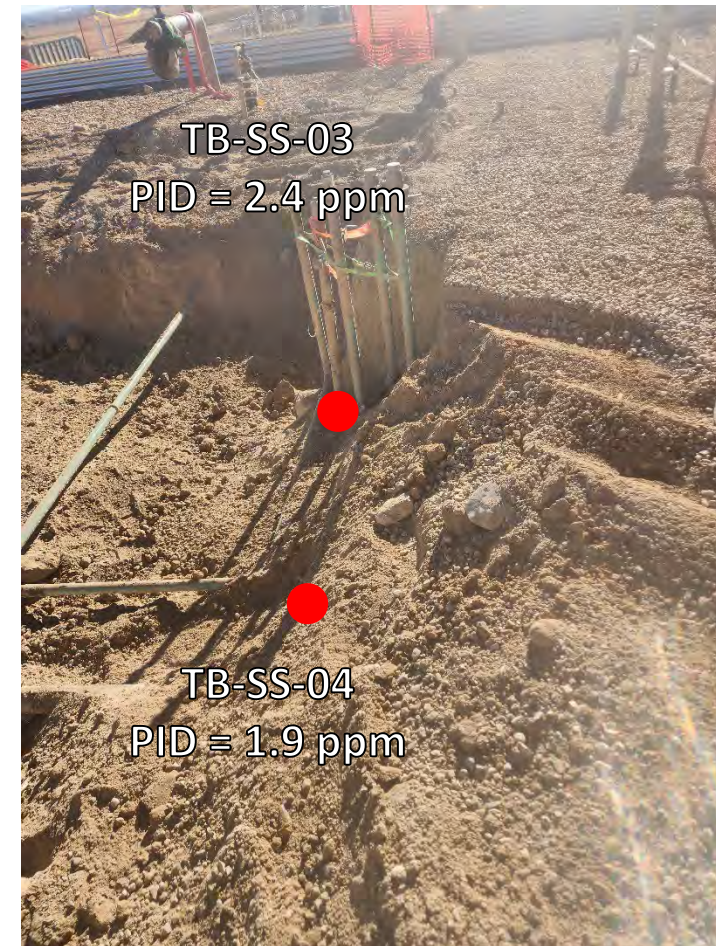

Looking north  
Hydrovac/hand auger utilized to delineate release  
  
No petroleum hydrocarbon staining and odor observed

## Facility Change Assessment – 11/16/23

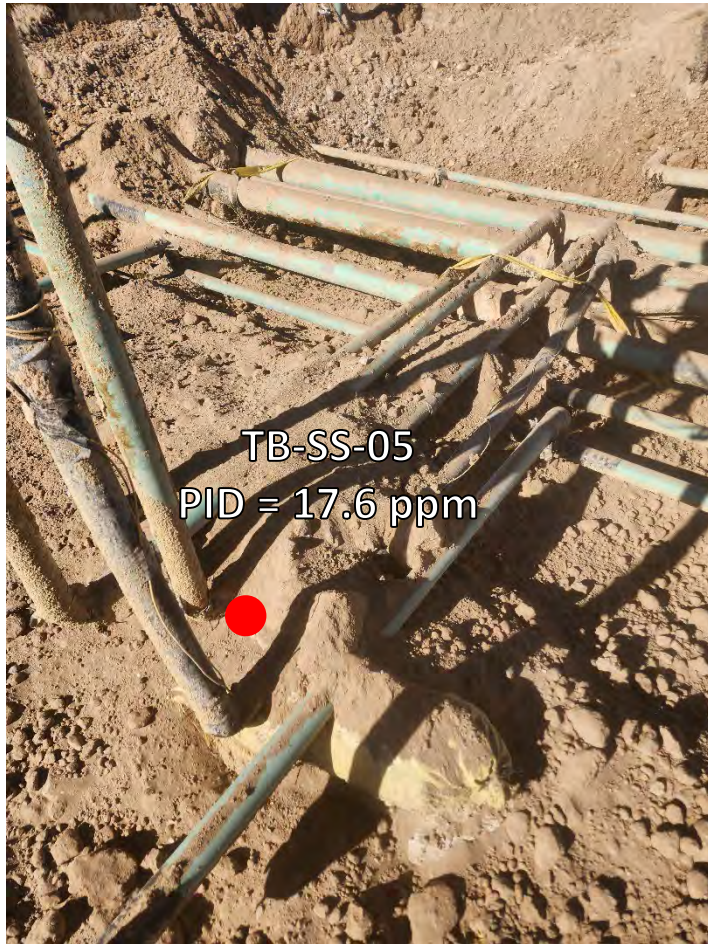

Looking south  
Grab samples collected adjacent to planned line removals  
  
No petroleum hydrocarbon staining or odor observed

Looking south  
Grab samples collected adjacent to planned line removals  
  
No petroleum hydrocarbon staining or odor observed

## Facility Change Assessment – 11/16/23

Looking south  
Grab samples collected adjacent to planned line removals

Slight petroleum hydrocarbon odor observed

Looking east  
Grab samples collected adjacent to planned line removals

Slight petroleum hydrocarbon odor observed
