Operator Comment: Inspection occurred the day prior to Renegade's 2021 weed spraying application. This lease was in the last grouping of wells we treated in 2021. Spraying was delayed due to spring rains and contractor availability. This growing season's weeds have now been cut and removed (see photos attached). Weed issues from 2020

inspection were resolved (see FIR document 402594305). Ground sterilant herbicide has now been applied which should be effective in 2022 growing season.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Approve pending re inspection
