Oil and Gas Conservation Commission
Room 312
1525 Sherman Street
Denver, Colorado 80202

Gentlemen:

We are enclosing a copy of the approved permit which was executed by your office covering the drilling of this well, which carried a permit number of 67 176.

Inasmuch as Keltic Mining Corporation Limited and Millard Huey are participating with us in the drilling of this venture, they asked that their names be added as an operator on the application. To facilitate matters, we are enclosing a duplicate application to drill with Keltic Mining Corporation Limited and Millard Huey's names on it. Otherwise, the permit remains the same. We are doing this thinking that you may wish to issue the same approval date and same permit number for this application.

If everything is in order, would you please change your records to reflect this change and return one approved copy to our office.

Yours very truly,

CARDINAL PETROLEUM COMPANY

Ray L. Harrison
Vice President
