Detailed description of the issue(s) * (?)

Please provide as much detail as possible. It is important to narrow down the issue(s).

I have submitted video via email complaint submission coming from- racinggreats@yahoo.com to attached video proof for noise at night. Your system will not allow MP4 video file upload here. Mr. Silver from your system called claiming it has to be no ambient noise at night making it louder. Video on 12/25/23 shows proof w / ambient noise (Semi truck road traffic and highway traffic showing in the video) to go with.....

The following info from the prior complaint. Ever since this rig has been functioning it is running louder at night to where you can hear it at my property almost 3/4 mile away. This sound is not happening during the day. It is a loud low constant droning sound that also vibrates. There is often a high surge of noise like as if the rig is impacting something harder and is amped up for a while. Also, a loud pop like blowdowns etc. every so often. The site does not seem to have the SK-8steel sound barrier system nor engine mufflers to cut down the low frequency noise for the neighborhood right next to them. They are amping up production at night and avoiding doing these extra regulatory requirements for noise restrictions. I cannot sleep a full night, Migraines, headaches, ear pain and ringing as well as stress from lack of sleep is becoming too much. It is affecting my work and my health. I'm sure the people right next to it are dealing with worse.

Is this an ongoing issue(s)? *

☒ Yes ☐ No

Do you know who the oil and gas company is? *

☐ Yes ☐ No

Oil and Gas Company Name

Verdad Resources

Did you contact the oil and gas company? *
