Inspection Photos

Photo 5. Facing south toward the offsite pit that is no longer in use. The area of the pit was pre-existing prior to the wellsite.

Inspection Photos

Photo 6. Facing north toward the embankment of the pre-existing offsite pit.

Inspection Photos

Photo 7. There is erosion along this area where water is discharged in storm events. This area should be armored and stabilized.

Inspection Photos

Photo 8. The embankment of the pre-existing pit is not stabilized and should be vegetated for long-term stabilization.
