Gentlemen:

On your October 1965 monthly production report (OGCC-7) for the Ruby field, Washington County, Colorado, you noted that the Tuttle wells had been abandoned.

While doing some field work on Ruby field, it came to our attention that you never received prior approval to plug these wells, nor have you filed plugging reports. Although these reports would be delinquent, it is necessary that we receive them to complete the well files.

Please fill out and submit two copies of the enclosed OGCC Form-4's on each of the wells abandoned.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION
