5 CA# 188777

Corrective Action: Comply with Notice to Operators: Interim Reclamation Procedures for Delayed Operations (dated January 5, 2017).

Date: 12/01/2023

The corrective action date is the date the inspection was submitted. Note- the complaint regarding this issue was submitted on 11/2/2023.

Response: CA COMPLETED Date of Completion: 12/28/2023

Operator Comment: Upland Exploration, LLC, has submitted Form 2 renewals 4/27/2023 for additional wells on this location, with the intention of drilling these wells. The currently producing wells began producing in November 2022; the additional wells are proposed to be drilled within 12 months of the current wells being drilled and brought on to production. The original proposed timing for interim reclamation complies with ECMC Rule 1003.b., which allows disturbed areas reasonably needed for subsequent drilling operations to remain disturbed until subsequent drilling operations commence within 12 months. SRF interim reclamation was to commence in November 2023, Upland filed a Form 4 Sundry on May 22,2023 (approved 8/21/2023) requesting extension of interim reclamation based on the refiling of the Form 2 APDs (which have yet to be approved). Given the delay of the approval of Upland's Form 2's, Upland will seek an Interim Reclamation Variance and will bond for the cost in lieu of conducting interim reclamation. Upland is working with counsel to prepare variance hearing application - this should be submitted no later than 1/15/2024 taking into holiday time.
