PLANNED COMMUNITY CONSULTATION

Stakeholder Best Management Practices (BMPs):

- The Stakeholder Relations team is a dedicated resource for the communities in which we operate, and we are available during daytime and evening hours. We strive to respond within one business day.
- Proactive community consultation includes sharing information, listening to stakeholders in the area, and considering their concerns and feedback related to all aspects of our operations including public health, safety, and welfare.
- We offer multiple ways for stakeholders to communicate with us including phone, mail, email, text, in person, and our stakeholder website. We will adapt our outreach to meet each person's preference and abilities.

Planned Community Consultation Throughout Permitting:

- We have and continue to proactively engage with owners and tenants within 2,000 feet of each of the Working Pad Surfaces (WPS). A portion of this OGD area is linguistically isolated (Rademacher); we have sent the initial WOGLA notice translated into Spanish and continue to have translation services available on an as-needed basis for the entire OGD.
- An in-person community meeting will be conducted for Clover and Alfalfa locations. The invitation and associated slides will be posted on the Oxy Stakeholder Relations website.
- We offer a variety of engagement opportunities upon request such as door-to-doors, small group meetings, phone calls, and emails.
- We will send the completeness letter to owners and tenants within 2,000 feet of the WPS, which will include the following information:
 - Proposed location description and map, including legal description

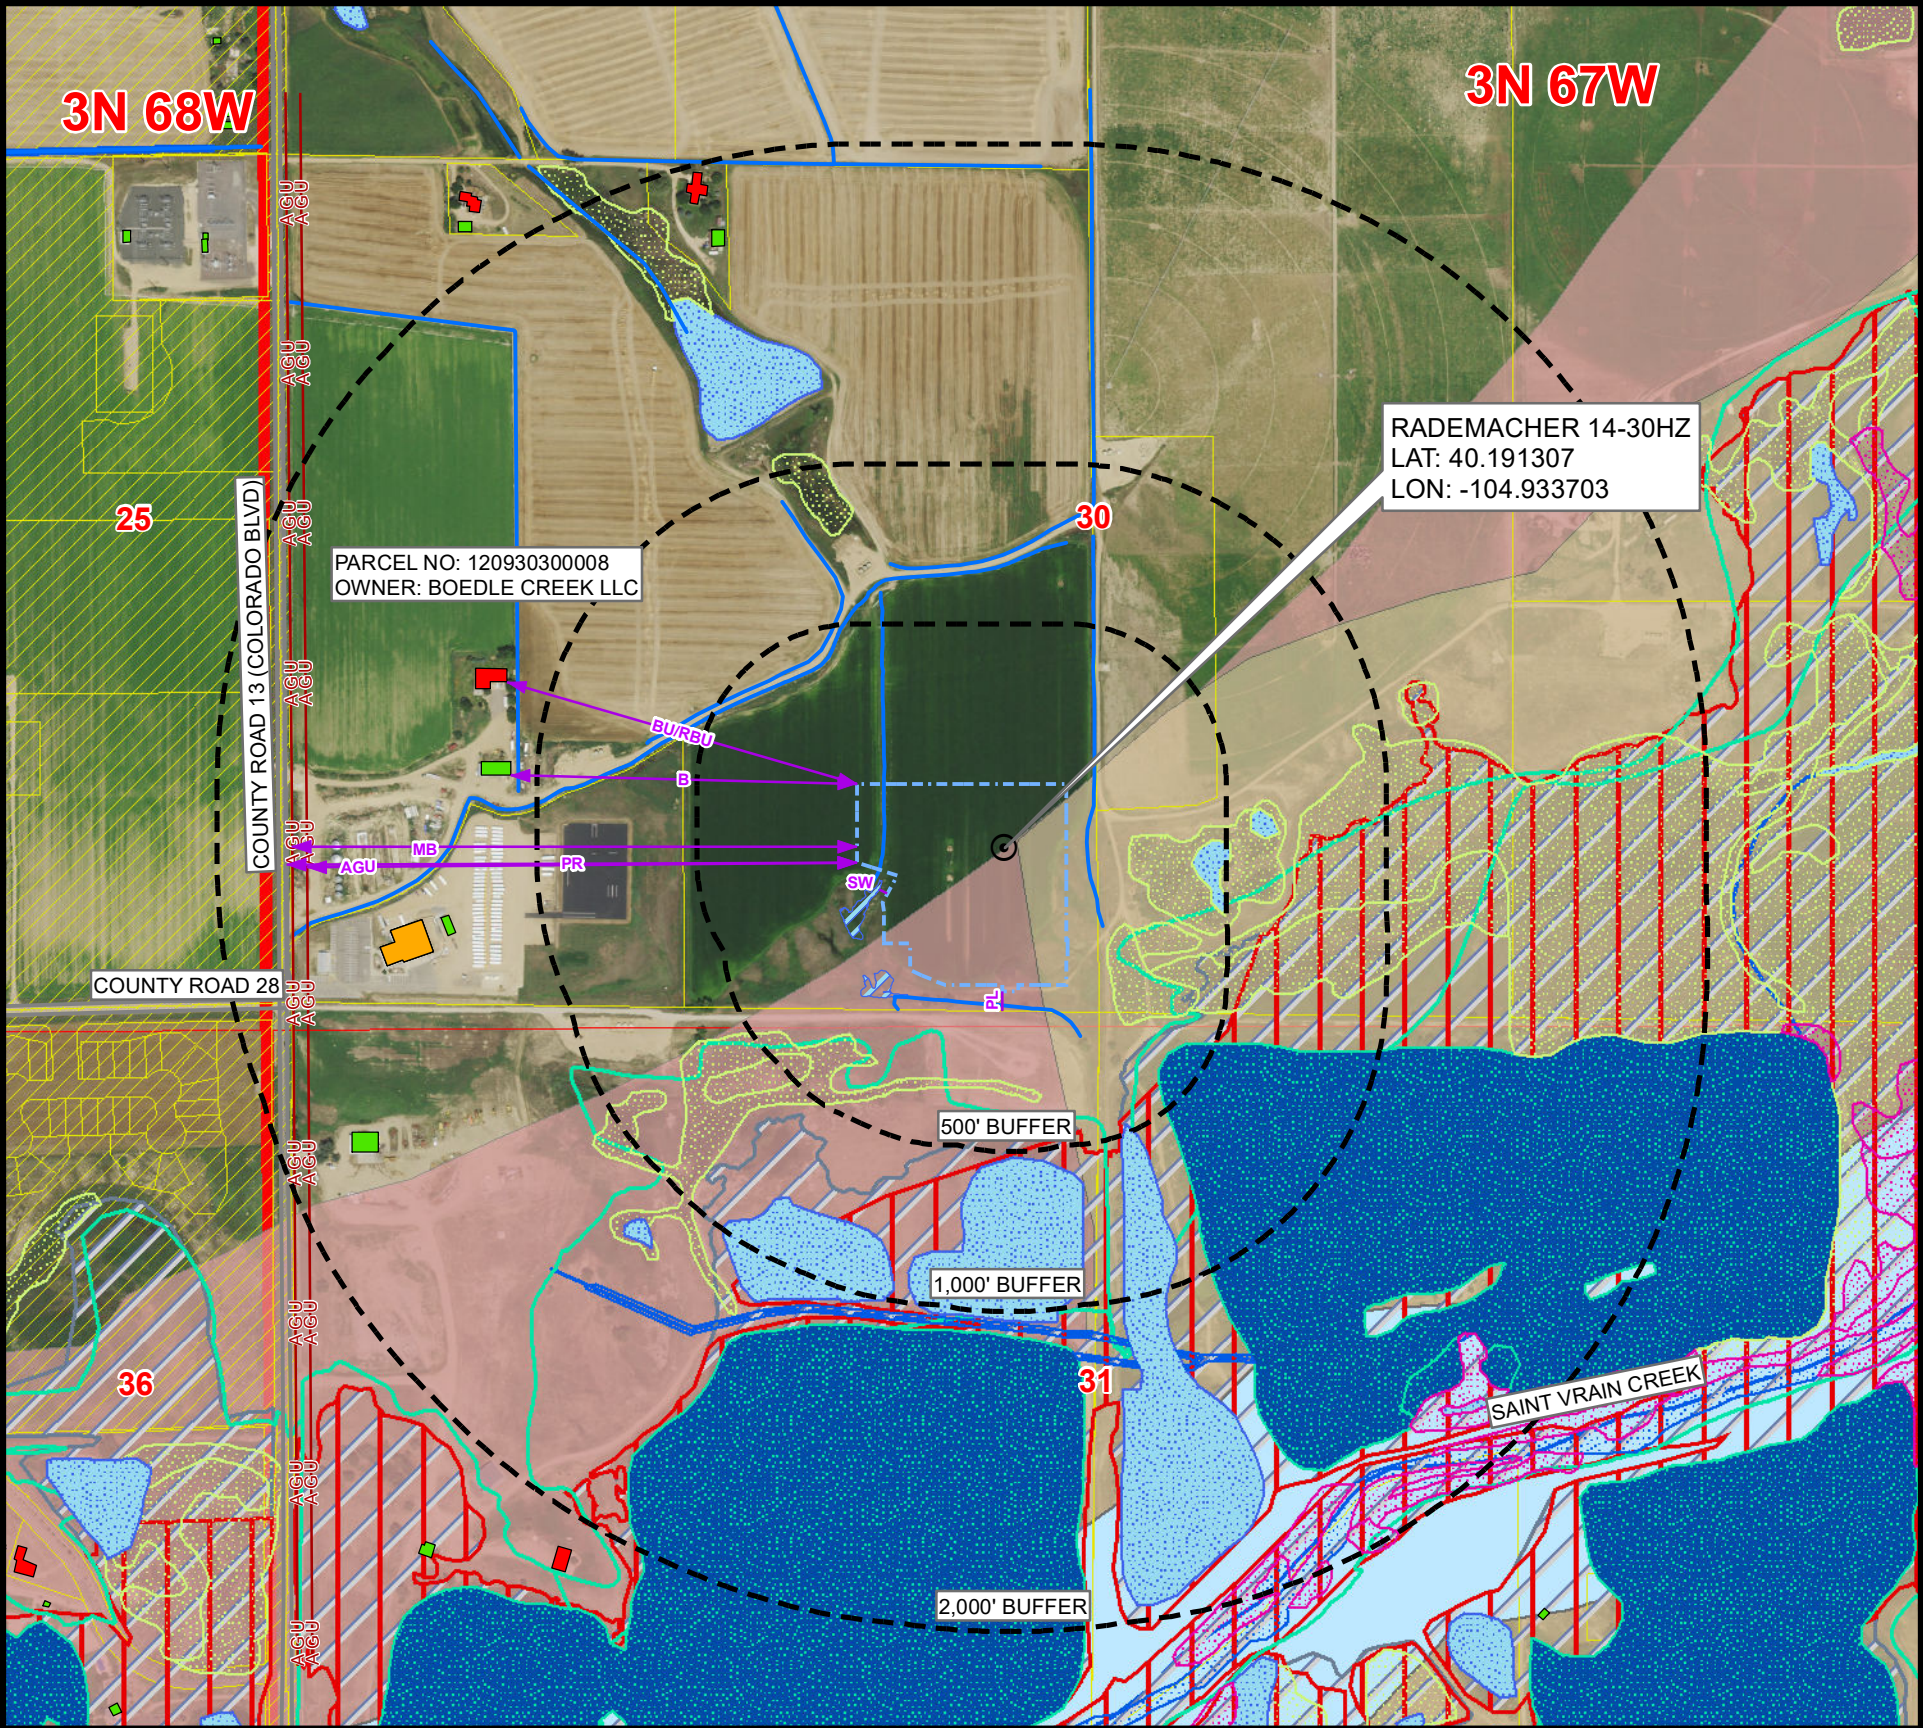

- The number and orientation of wells, types of equipment, and infrastructure related to anticipated operations
- A description, proposed timeline, and expected duration of planned operations including construction, drilling, completions, production, and reclamation
- The proposed haul routes and traffic volume associated with each phase of operations
- A description of each stage of operation along with a description of our BMPs to mitigate potential impacts including noise, light, odor, dust, traffic, and visual
- Contact information for our Stakeholder Relations team

Planned Community Consultation After Permit Approval:

- Send all required Weld County and COGCC notices
- Provide frequent project updates and post notices and hearing and other project information on the OxyColoradoStakeholder.com website
- Throughout the entire life of the wells, our Stakeholder Relations team is available via:
 - Phone: 1.866.248.9577
 - Email: ColoradoStakeholder@oxy.com
 - Website: OxyColoradoStakeholder.com
 - Our 24-hour Integrated Operations Center: 970.515.1500
