 Complaint Document form 18 #403635776  
 Nature of Complaint: Noise/Lighting  
 Field Inspector Actions:  
 On 12-26-2023, I Robbie Revas area field inspector was assigned a complaint received by  
 ECMC staff in reference to Noise & lighting. The complainant Amy Webster 29992 CR 18  
 Keenesburg, CO 80643  
 stated the issues were occurring at complainants home.  
 On 12-27-2023, My Supervisor Randy Silver made contact with the complainant who  
 indicated  
 experiencing bright light & a continuous loud humming noise that appears to come from  
 the drilling  
 rig West of complainants home. I performed a complete site inspection of the oil and gas  
 location and associated wells in  
 the area. At time of inspection, I did not observe any unusual noise in or around location  
 & all lights look to be pointed at the ground.  
 Two sound studies were performed by ECMC. After initial review of sound data, it  
 appears the sound data is found to be inconclusive due to the temperature & weather. All  
 sound data will be attached to complaint inspection doc.  
 At time of inspection, I spoke with Verdad drilling supervisor he stated at time of  
 complaint they were drilling, and no unusual activity was taking place. Operator also  
 stated they had lights facing down & were running casing during the day to avoid  
 clanging and banging at night. Estimated time left on location is approx. 1 - 2 weeks.  
 No violation of ECMC rules were observed at the time of the inspection.  
 All information reviewed and site inspection information has been submitted to the  
 COGCC for further review.
