

00250969

October 21, 1959

Mr. C. F. Bass
Skelly Oil Company
Drawer 312
Sterling, Colorado

Dear Mr. Bass:

This is written with reference to the completion of your No. 4 G. A. Henderson well in Section 18, T-9N, R-53W, in the "J" sand.

If you have the "D" sand open in this well and open up the "J" sand also, you will have a dual completion. Since there has been no previous dual completion in Cedar Creek, the approval to open both sands will have to come after a hearing.

The next hearing date will be November 17, 1959. If you plan to have this matter heard at that time, your application should be filed by November 2, 1959.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

D. V. Rogers, Deputy Director
