Comment See "Good Housekeeping" regarding Weeds.

This is a limited inspection due to snow cover, therefore the overall status of the interim reclamation is considered "in process"; however, it was observed in this inspection that the slopes on the east end of the Location are not progressing towards a uniform, desirable perennial vegetative establishment pursuant to 1003 Rules. Additional reclamation efforts during the 2024 growing season will be required within these areas.

If Operator determines that there are other interim areas that do not meet 1003 Standards, then Operator shall also include these areas during reclamation work.

Corrective Action Comply with 1003 Rules.
