Comment:

This location does not comply with Rule 1004. Previous inspection (doc #696105293; 07/05/2022) documented that the location was not progressing towards Rule 1004 standards with evidence of non-uniform vegetation cover resulting in bare/exposed soils and access roads which have not been reclaimed. During this inspection, it was not apparent any reclamation activities have been performed since the previous inspection. Exposed/bare soils and access roads remain unchanged. Additional reclamation activities are required. Refer to attached inspection photos.

Corrective Action:

Comply with Rule 1004. The corrective action date is being backdated to when the location was first observed to be out of compliance.
